OVERALL:

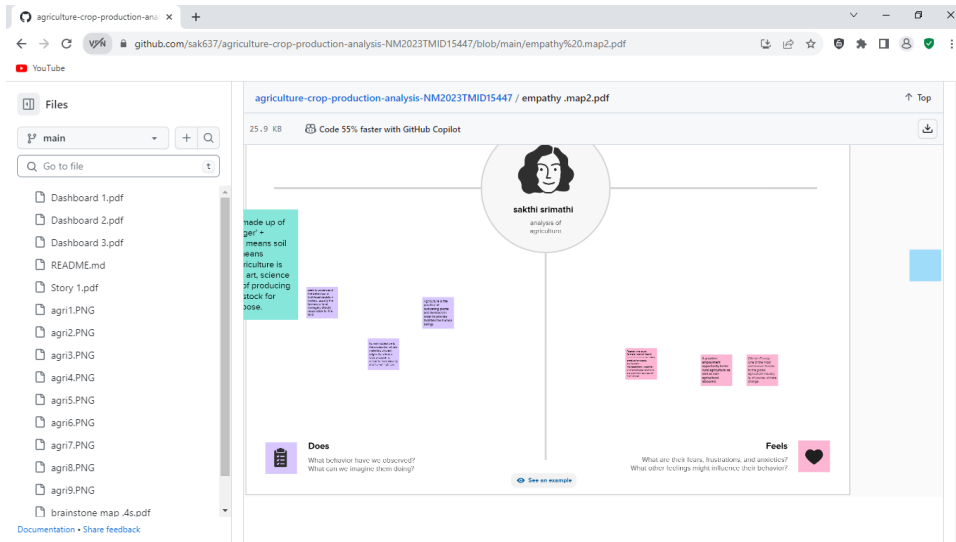

INTRODUCTION:

This report delves into the captivating realm of India's agricultural cultivation, providing a comprehensive visual exploration of key aspects and trends in the agricultural sector. Through the visual representations, readers can gain valuable insights into crop production, seasonal variations, regional distribution, and overall production trends. These visualizations enable intuitive analysis, allowing stakeholders to uncover patterns, identify areas of growth or concern, and make data-driven decisions.

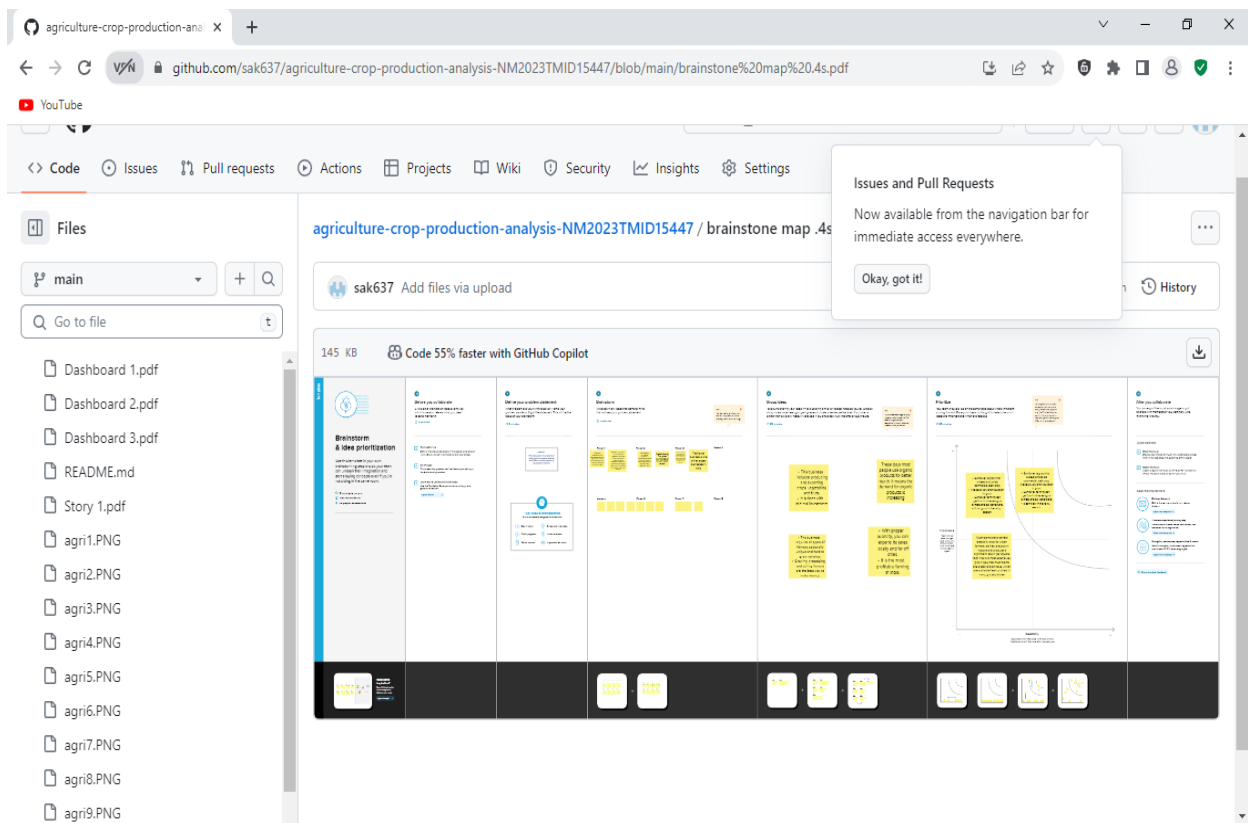

PURPOSES

Agriculture is the art and science of cultivating the soil, growing crops, and raising livestock. It includes the preparation of plant and animal products for people to use and their distribution to markets. Agriculture provides most of the world's food and fabrics

EMPATHY MAP

BRAINSTORM MAP

ADVANTAGES:

Natural environment

No chemicals
Eye on you
Environmentally friendly
Healthier and Tastier

DISADVANTAGES:

Expensive products
More Labour
High MRP
Cross breeding problem
Labour charge

APPLICATION:

By harnessing the power of Tableau, this report not only presents the data in a visually appealing manner but also provides an interactive experience for readers to explore the intricacies of India's agricultural cultivation. To Extract the Insights from the data and put the data in the form of visualizations, Dashboards and Story we employed Tableau tool.

CONCLUSION:

In India economy is on agri-economy and depends highly on the agricultural sector.

FUTURE SCOPE:

[“Global Organic Fertilizers Market](#)– by Source (Animal-based Organic Fertilizers (Blood Meal, Animal Manure, Bone Meal, Other Animal-based Organic Fertilizers), Plant-based Organic Fertilizers (Green Manure, Seaweed Extract, and Other Plant-based Organic Fertilizers), Mineral-based Organic Fertilizers (Rock Phosphate, Silica, Other Mineral-based Organic Fertilizers), and Other Organic Fertilizers), by Form (dry organic fertilizers (Granular Organic Fertilizers, Organic Fertilizer Pellets, Organic Fertilizer Powders, and Other Dry Organic Fertilizers) and liquid organic fertilizers), by Application (broadcasting, fertigation and foliar application and other application methods), by Crop Type (cereals & grains (Wheat, Maize/Corn, Rice, and Other Cereals & Grains), fruits & vegetables, oilseeds & pulses, turf & ornaments and other crops)-Trends, Industry Competition Analysis, Revenue and Forecast To 2030.”
